Canvas Portraits

Canvases make a bold statement and they are my preferred way to display my photographic art. Our canvases are a high quality print on an artist's canvas. The canvas is stretched over custom-made wood stretcher bars. We have several sizes to choose from with a depth of 1.5". They appear to float on your wall and they don't require a frame; the structure is inside the art.

Wall Portraits

Our wall portraits are printed on Kodak Professional ENDURA Paper, sprayed with a luster protection coat and mounted onto Gatorboard. Gatorboard is a laminated foam panel board that is durable and resists dents, perfect for mounting photographic prints. Wall Portraits are perfect for framing to display your artwork throughout your home.
