Thornton Studio Photographers *photography and on-site print service* at your event location

- ✓ We photograph and produce high quality photographic prints at your event location.
- ✓ Our high speed printers can produce up to 300 high quality dye sublimation prints per hour, making our **on-site print service** the perfect solution for your event location photography needs.
- ✓ A variety of photo print sizes are offered; the most common are 5" x 7" for the initial print and are offered with folder. The sizes on offer are decided *before the event* to ensure we bring the appropriate printers and media.
- ✓ The photographic prints are displayed for viewing by the guests. If someone has blinked, this is not a problem as we can easily retake the photograph, or as is so often the case, those who change their mind about having a photograph taken once they have seen the quality of the work

- ✓ Thornton Studio Photographers staff members arrive at the location with plenty of time to set up a mini studio on-site before the guests arrive. We will need space for the studio, plus some tables on which to work and to display the *photographic prints at your event*.
- ✓ It would be preferable if our *studio* can be left in place for use throughout the evening, but not hidden out of the way so that we are not noticeable to your clients or guests.
- ✓ Some locations have natural backdrops which are suitable for *guest portrait photography*, for example:
 - An attractive wall or entrance
 - An eye-catching staircase
 - Your step and repeat backdrop banner, etc
 - If requested, Thornton Studio Photographers will supply a photographic backdrop from our extensive collection.
