How to Prepare for your Senior Photography Session FAQ

1. Q: What Should I wear?
 - A. We always suggest dressing up for your Senior Photographs though you can come dressed however you like. They are how you will remember your last year of high school. Please dress full length including shoes with attention to detail as the top two sessions include full length shots. For girls, go for a natural make up look and bring your makeup for any touch ups if necessary. Guys, a fresh shave is recommended. If you plan on getting a haircut, we recommend going at least one week in advance before your session. Wear your hair in a style that you are comfortable with and make sure your hands and nails are presentable as they can show up in your pictures. Blemishes will be removed from all retouched images. Braces can also be edited out for an extra fee.
2. Q: What should I bring?
 - A. Please be dressed and ready to go at your appointment time. Please bring different outfits and accessories if you plan on doing any outfit changes or different looks. If you are doing a personality session, remember to bring your musical instrument, sports equipment or whatever it is that you would like to be photographed with. Please look over the session information and decide what session you would like. You will need to pay for your session at the time of your appointment whether you want to pay with cash, check or credit. You can also send your student in with payment information as long as they know what session they are purchasing.
3. Q: How long do the sessions take?
 - A. Senior sessions can take anywhere from 15 minutes for the yearbook only to two hours for the elite session. Please allow yourself plenty of time for your session.
4. Q: Why do I have to hold my appointment with a credit card or advanced payment?
 - A. It is just like a concert ticket or hotel as there is only one appointment for each photographer at every given time. We have an entire staff waiting to make your Senior photography experience great!
5. Q: When will I receive my prints?
 - A. If you are selecting a session that comes with prints, you will receive your package after placing your order through mail, e-mail or fax. Orders take approximately 4 weeks to process depending on the time of year. Selecting your yearbook pose does not indicate your order. There will be an order form handed to you on the day of your appointment and your proofs will also be uploaded online to view and order.
6. Q: What if I don't like my pictures?
 - A. Don't Worry! If for some reason you do not like your photographs, we offer retakes of your senior session for \$50.
