Dear Scott,

Good day! I wanted to write to you a letter thanking you for arranging to come in and speak to the photography students and alumni at The Art Institute of Colorado this quarter. Our goal in Career Services is to provide students with conversations with successful professionals in their field, that a can speak to their "real world" experiences in the profession. Scott, you definitely provided that!

Your presentation was given to a packed house of students, alumni and even a handful of professionals that you have worked with in the past. The presentation was honest, light hearted and colorful from experiences throughout your career. Possibly even more important though, you provided specific examples of things to do and not to do to break into the industry, this proved to be insightful to students and recent alumni. I didn't see a cell phone picked up throughout the entire event!

There were a handful of photography faculty in the presentation as well, that commented on how your voice reinforced a number of aspects that they try to instill in the classroom. We would welcome having you come back to speak with our students and found the event to be very beneficial!

Thank you Scott!

Best regards,

Stacy
