Wedding Videography

At Focused Bliss Productions, we go beyond simply recording the events from your wedding on video. Rather, we create a work of art that captures the special moments and subtle details. These are woven into a beautiful narrative that will stir the emotions of any viewer.

We do this in a creative and cinematic manner so our work provides you with a timeless remembrance of your wedding day with an unparalleled level of quality. This has placed us among the top 5% of wedding pros nationwide.

Our Signature Storytelling Package contains all of the essential and most popular items. These include a team of two cinematographers, seven hours of coverage time by each shooter, a social media sneak peak video, as well as our hallmark cinematic film like those on our website. Investing in a high-quality wedding film is an important decision that we would love to speak with you about. Packages typically start between
