

PREPARING YOUR HOME FOR A PHOTO SHOOT

INTERIOR-

If you have special features of your home that should be included in your photographs please let us know so we're sure to capture them.

All pets need to be safely secured and out of sight during the time your home is being photographed. It's also a good idea to put away any dishes or toys normally left out for your pet to use.

Clear off counter tops in kitchen and bathroom areas and hide trash cans inside closets or other areas where they won't be seen.

Remove photos, notes and papers from the refrigerator.

Turn on all interior lights and replace all burned out light bulbs.

Turn off ceiling fans and televisions.

Make all beds, put away clothes and organize each room so that it looks its very best.

EXTERIOR-

Be sure to remove all vehicles from driveways and the area directly in front of the house to provide an unobstructed view of your home.

Check to insure that garbage cans, garden tools, hoses, sprinklers and toys are not visible in either the front or the back of your house as both views will be included in your photographs.

Groom landscape and sweep all driveways, sidewalks, decks and patios.
